

Full Product Specification

Tanita Innerscan Body Fat Weighing Scales BC536

Code BC536

The technology used in Tanita's home use body composition monitors is based on the same advanced technology found in Tanita's professional body composition analysers widely used by doctors, medical centres and by professional athletic teams, fitness clubs and personal trainers around the world.

Product Information

The Tanita BC536 will display Total Body Water %, Body Fat %, Physique Rating and Muscle Mass. A total of 4 memories will store the essential personal information, but the guest mode accommodates anyone to get a physique rating.

Body Composition Monitors are the next generation in Healthcare. The BC-536 is part of the Innerscan fitness range .
